Spring Creek Festival 2007

*Enjoy fishing in
Southwest Wisconsin!!*

The Spring Creek Festival will be an informal gathering of fly fishermen and others interested in the cold water resources of the Driftless Area. On Saturday, there will be programs on fishing, fly tying, rod building, casting, and other activities related to fishing the spring creeks of the area. All proceeds from the raffle and the weekend events will be used for project work on Southwest Wisconsin trout streams. We hope that you will make plans to spend the weekend enjoying the great outdoors and our resources.

During the day, enjoy the instructional forums and demonstrations. There will also be raffles for fly fishing equipment and many other prizes.

Come and spend the day with us. We are sure that all levels of fly fishermen will take away a better understanding of the sport.

Festival Programs

Program Topic	Time
